

PRODUCT INFORMATION SHEET

Puller for hubs and bearings, 16 pcs.

Product description

Set is designed for removing hubs, bearings, pinion gears, pulleys, shafts and other push-in parts used in mechanics. Thanks to its design, individual elements prevent damage to the hub during operation. Set is used in professional workshops and car services. An additional advantage is the possibility of using on a hydraulic or mechanical press during dismantling bearings, sleeves and other rotating parts.

Charakteristics

- made of high-quality steel;
- slide hammer 2,5 kg, length 57 cm;
- elements of a set are packed in a practical suitcase, which facilitates their transport and storage.

Set includes:

- Handle
- Hammer
